

**Efforts taken by the institution towards
Maintenance of Transparency**

The college has a structured system of financial management. The accounts are maintained on a daily basis and the cash books are updated. The internal audit is done periodically under the supervision of the Principal through head accountant and anomalies are rectified. The bills and Vouchers are subjected for Annual Audit by external Chartered Accountant. The Audit report is used for further Budgeting of the next year. This is followed by audit from the University Finance section and the Kerala Government. Periodic Audit by AGS Office and the official reports to the funding agencies like UGC/RUSA etc are also strictly adhered to. Thus the college tries to maintain transparency and accountability in its financial management to the best
